An effective approach for determining a value is to send out a survey to your current customers. If these clients have already bought an ebook from you, ask for his or her opinion when it comes to

price. Do this by creating a sales web page for the new e book, however do not embody a price on that page. Instead, add various hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to check out costs by creating a number of duplicate gross sales pages with different costs on each page. Be certain that your sales copy is precisely the identical on every page, and includes your selling-deal with sentence. Then figure out for each page the conversion ratio between guests to your web site and sales of your book. It will let you know what your optimum value is.

In the end, for those who've written a e-book that solves a drawback or presents a new technique, your e book will bring in each visitors and profits.
