Besides selling your books assiduously on-line, there are a number of other strategies that can help you promote more books.

One is to present something away totally free with your book, such as a precious bonus item. Or bundle several ebooks underneath one price, which lowers the worth for each book if they were sold separately.

An efficient method for determining a price is to ship out a survey to your current customers. If these customers have already purchased an e-book from you, ask for his or her opinion in terms of

price. Do this by making a sales web page for the brand new e-book, but don't embody a worth on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out prices by making a number of duplicate sales pages with totally different costs on every page. Be certain your sales copy is precisely the identical on every page, and consists of your selling-handle sentence. Then determine for each web page the conversion ratio between visitors to your website and gross sales of your book. This may let you know what your optimum price is.

Ultimately, should you've written a guide that solves a problem or presents a brand new method, your ebook will herald each traffic and profits. So you'll want to write that selling-deal with sentence that sums up what problem your e-book solves and what the benefits of your 1277 book will probably be to the purchasers who buy it.
