An efficient approach for determining a price is to ship out a survey to your present customers. If these clients have already bought an book from you, ask for their opinion in terms of price. Do that by making a gross sales page for the new e book, but do not embody a value on that page. Instead, add numerous links to survey questions that ask pointed questions to aid you in assigning a worth to your ebook.

Another strategy is to check out costs by creating a variety of duplicate sales pages with totally different prices on each page. Be certain your sales copy is strictly the same on each page, and includes your promoting-handle sentence. Then figure out for each page the conversion ratio between guests to your web site and sales of your book. This will tell you what your optimum value is.

In the end, in case you've written a book that solves a drawback or presents a new technique, your ebook will bring in both site visitors and profits.
