An effective technique for determining a price is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for their opinion when it comes to price. Do this by making a gross sales page for the new e-book, but do not include a worth on that page. Instead, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

Another strategy is to check out costs by creating a number of duplicate sales pages with totally different costs on each page. Be sure that your gross sales copy is strictly the same on each web page, and includes your selling-handle sentence. Then figure out for every page the conversion ratio between guests to your web site and gross sales of your book. This may inform you what your optimum value is.

In the end, for those who've written a e-book that solves a drawback or presents a brand new technique, your guide will usher in both site visitors and profits.
